EPHEMERALITY OF IT ALL

Ice Block and Flower
Installation Artwork
4" x 6" x 14", 2024

"Ephemerality of it all" is an installation artwork crafted from ephemeral materials such as ice and flowers. This piece functions as an invitation for viewers to engage in a dialogue regarding the significance of living in the present moment. It beckons to those who encounter it to step into the artist's mindset, experiencing how an artist infuses transient elements with meaning, knowing they may soon become mere memories.

This installation resonates with those who yearn to halt the passage of time, urging them to pause and admire the beauty of ephemerality. It emphasizes how the ever-changing nature of things adds depth and richness to life, rendering it more captivating and worthwhile.
